JUNE 2015 QUARTER ACTIVITIES REPORT & APPENDIX 5B

Dakota Minerals (ASX: DKO) ("the Company") is pleased to provide the following summary of activities conducted in the June 2015 quarter.

Corporate

The Directors remained focused on cash preservation whilst continuing to evaluate worthwhile business opportunities.

Evaluation of resource and non-resource projects continued throughout the quarter and although some promising opportunities were progressed to advanced due diligence, none as yet have met the Company's investment criteria capable of adding significant shareholder value. The process continues.

Also during the quarter 6,600,000 listed Options in the Company (ASX: DKO) expired on 30 June 2015, unexercised.

Projects Update

The Company has entered into Joint Venture agreements on both its major project areas in Victoria and NSW and therefore presently has no expenditure commitments for exploration. Exploration activities are being pursued by the JV partners as follows:

1. Eastern Victoria, Orbost Gold and Copper Project (Dakota :100%, Kingston earning in)

The Orbost Project, about 30 kilometres north of the town of Orbost, within EL4933 and EL 4981 that was granted to Dakota in August 2011, covers a regional metallogenic zone prospective for copper and mineralisation.

On 27 January 2015 the Company entered into Farm- Out Agreement with Kingston Resources Limited (ASX: KSN) to further enable exploration at the Orbost Copper Project EL 4933 in Victoria.

The Company's JV partner Kingston are following up potential small tonnage high grade mineralisation identified at McDougall's historic prospecting shafts previously inaccessible until after the recent bushfires through the area known as Copper Ore Creek within Orbost EL 4933.

They are planning to undertake surface mapping and geochemical sampling to define the size and orientation of the McDougall's area and depending on results will plan drill holes to test the potential of the target.

Follow up meetings were held during the quarter with the Victorian Geological Survey to discuss the Company's application for funding under Victorian Target Minerals Exploration Initiative at Orbost. There remains no assurance that the application will be successful.

A summary of the geological prospects of the Orbest project is contained in the Company's ASX Announcement dated 27 January 2015.

2. NSW, Sofala - Wiagdon Thrust Joint Venture, NSW (Dakota 30% free-carried to bankable feasibility statement, Perpetual Resources 70%)

The Sofala - Wiagdon Thrust Joint Venture (Perpetual (ASX: PEC) 70%/Dakota 30%) Project contains 10 Exploration Licences located within the Lachlan Fold Belt in eastern NSW with their centre 180km northwest of Sydney. The area contains many historical alluvial and hard rock gold workings with recorded production from the area and including the adjacent Hill End and Hargraves goldfields (20km and <10km respectively) west of the Project area of 4.15 million ounces.

The Joint Venture is exploring for structurally controlled, disseminated or vein controlled gold, gold-antimony, and gold-copper deposits associated with volcanic and intrusive porphyry and epithermal regimes.

Please refer to Perpetual Resources Limited (ASX: PEC) 4th Quarter Activities Report to 30 June 2015.

position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.

- 2 The “Nature of interest” (items 6.1 and 6.2) includes options in respect of interests in mining tenements and petroleum tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement or petroleum tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report.
- 5 **Accounting Standards** ASX will accept, for example, the use of International Financial Reporting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
